Accordingly, we maintain this Acceptable Use Policy (this “AUP”) to prescribe rules with which our Clients must comply as a condition of continuing to receive our products and services (collectively, the “Services”). Advanced E-Learning Solutions reserves the right to initiate legal action against, to terminate any and all Services being provided to, and to otherwise take action against any person who violates one or more provisions of this AUP.

1. Purpose and Scope

Each Client is solely liable and responsible for its use of the Services and for any and all Content (defined below) that the Client posts, stores, collects, displays, uploads, transmits, downloads, disseminates, advertises, or otherwise makes available through the use of the Services. If a Client makes available the Services to a User who has not contracted directly with Advanced E-Learning Solutions, each such User and Client is jointly and severally liable and responsible for all use of the Services and for any and all "Content" stemming from that use.

A violation of this AUP will result in penalties, including without limitation those required by law and by Advanced E-Learning Solutions, in its sole and absolute discretion.

a) Spamming: Unsolicited Bulk or Commercial Email or Advertisements

Advanced E-Learning Solutions prohibits the use of its network as a means to send bulk email or unsolicited commercial email (together, "UCE"), often referred to, as "spamming." You may not use or permit others to use our network for the purpose of sending UCE or spamming. Clients of Advanced E-Learning Solutions may not host, nor permit hosting of, web sites or other sources of information advertised by UCE from other networks.

Sending a message or advertisement to more than five recipients constitutes "spamming" for purposes of this AUP, unless the recipients have expressly requested or consented to appearing on a related mailing list and granted their permission in writing via email ("opted in").

This rule Advanced E-Learning Solutions Corporation applies to both commercial advertisements and informational messages sent to recipients via email, as well as messages posted in Usenet discussion groups.

Clients who maintain bulk "opt-in" email lists must have a method of confirmation of subscriptions and be able to prove those subscriptions when requested by Advanced E-Learning Solutions. At Advanced E-Learning Solutions' discretion, if no such evidence is available, messages may be considered as unsolicited.

Complaints received from Internet users or service providers must be responded to within twenty four (24) hours of receipt, and Advanced E-Learning Solutions should be copied (admin@aelearn.com) on any such correspondence.

Advanced E-Learning Solutions prohibits the use of its network as a means to transmit identical or substantially similar unsolicited email messages, to promote or facilitate the transmission of unsolicited email messages, to attach an excessively long signature to a message, to forge the headers of an email message in any way, or to send messages aimed at disrupting the recipient or causing difficulties upon receipt. Maintaining an open SMTP relay and transmitting chain letters, make-money-fast, or pyramid-style schemes of any sort is prohibited.

Upon notification of an alleged violation of our spam policy, Advanced E-Learning Solutions will initiate an investigation. During the investigation, Advanced E-Learning Solutions may restrict Client access to the network to prevent further violations. Advanced E-Learning Solutions will evaluate the evidence and determine whether the recipients opted-in to a related mailing list or whether a violation of this UCE/spam policy has occurred.

If a Client is found to be in violation of this policy, Advanced E-Learning Solutions may, at its sole discretion, restrict, suspend, or terminate that Client's account. Further, Advanced E-Learning Solutions reserves the right to pursue civil remedies for any costs associated with the investigation of a substantiated policy violation, and Advanced E-Learning Solutions will notify law enforcement officials if the violation might constitute a criminal offense. A violation of Advanced E-Learning Solutions' UCE/Spam policy also may be reported to admin@aelearn.com.
